Top Nav Bar

Top **<nav>** work.
Continue your bank site.

large

BANKING   CREDIT   INVESTING   SIGN IN   GET STARTED   HELP

medium: padding, right-margin

BANKING   CREDIT   INVESTING   SIGN IN   GET STARTED   HELP

600px: disappear and appear

BANKING   CREDIT   INVESTING   MENU ▼

small: another disappears

MENU ▼

```html
<nav>
  <div class="row-container">
    <div class="nav-left-group">
      <ul class="nav-list">
        <li class="nav-item"><a href="#">Banking</a></li>
        <li class="nav-item"><a href="#">Credit</a></li>
        <li class="nav-item"><a href="#">Investing</a></li>
      </ul>
    </div>

    <div class="nav-right-group">
      <ul class="nav-list">
        <li class="nav-item"><a href="#">Sign In</a></li>
        <li class="nav-item"><a href="#">Get Started</a></li>
        <li class="nav-item"><a href="#">Help</a></li>
      </ul>
    </div>

    <div class="nav-right-drop-menu-group">
      <ul class="nav-list">
        <li class="nav-item"><a href="#">Menu &#x25BC;</a></li>
      </ul>
    </div>
  </div>
</nav>
```

Exercise (60min)

Continue your previous bank site

Write top **<nav>**

Support **small** and **medium** breakpoints

Demo mine, ask me anything...
